Speaker Requirements

Below we've listed some equipment and other venue- and speaking-related requirements for Nehme's engagements.

After booking Nehme, you will receive a letter stating exactly what you will need to have in place at your conference.

The list below can be used as a baseline:

- Microphone: Wireless lapel **microphone**.
- Visual Aids: Large projector **screen** capable of full-color and sound showing of a PowerPoint presentation from a laptop. (Nehme will bring his own laptop and remote).
- Stage: If the audience is more than 50 participants, a raised **stage** will help participants see Nehme in action.
- Personnel: An A/V **Technician**, Sound Engineer, or IT Professional must be on hand to assist during the event.
- Recording: A first-class **recording** of the event is appreciated.

[Note: Food service should stop five (5) minutes before the speaker's introduction.]
